	Revision Adopted:		
	4/01		

The Board of Education recognizes that one of the greatest resources of the school is to be found in the people of the community who have special knowledge and particular talents to contribute to the school program.

The Board, therefore, encourages the use of community resources and citizens to assist in furthering the educational program. Each principal should study the needs of the principals' individual school, survey the resources available in the school community and weigh their probable usefulness.

All community resource persons must be approved by the principal and serve under the supervision of the professional staff of the school.

The principal shall ensure that appropriate recognition of community resource persons' services is made annually.
