The Director of Schools shall develop and maintain an emergency allergy response plan that meets state guidelines for managing students with life-threatening allergies. The plan shall include measures to reduce exposure to allergens and procedures to treat allergic reactions. Components of the plan shall include, but are not limited to: education and training of personnel, record keeping/documentation, development and reviews of the allergy action plan, and protocols for classrooms and cafeterias that include strategies to reduce exposure to allergens.[1]

Using the state food allergy guidelines plan as a guide, the Director of Schools shall also develop a process to identify all students with food allergies and develop and implement an individualized health care plan (IHCP) with an allergy action plan for each specific student
